CALIFORNIA DESPERADOES.

From time to time it becomes the duty of the press to lay before the public the histories of criminals who have been preying upon the community almost since the foundation of the State. In almost every narration of the kind the account concludes with the arrest, trial, and conviction of the guilty parties, and their sentence to a lengthened term of imprisonment. Crime does not pay in this State, as the inspection of the Police Records would demonstrate beyond a doubt, the men who commit two-thirds of the offenses which come under the cognizance of the public form a comparatively small band, and are, as a rule, professional law-breakers. The life they lead is a wretched one, fully three-fifths of their existence being passed within the walls of the State Prison; but the moment they find themselves again at liberty, they seek out their old haunts and their old vicious companions, and resume the guilty career in which the arm of the law had, for awhile, checked them, and which they will surely pursue until they are again arrested and imprisened. As an illustration of the lives led by such men, we are about to sketch the career of two, who recently passed through this city *en route* to the State Prison, where they are now sent for the third or fourth time.

On the fourth of July last, the Police of this city received information that several burglaries had been commited at Petaluma. The houses of Messrs. Lamb, Huiman and Marshall had been entered, and a large amount of property, consisting of plate, jewelry, wearing apparel, etc., abstracted. It was ascertained that the robberies had been committed by three men, and the affair having been placed in the hands of the detective force, Captain Lees and officer Fuller set to work to investigate it. After making inquiries, they arrested two men named Charles Treher, alias Dutch Jake and Billy Harris, about the end of July, on suspicion of having committed the burglaries. They had every reason to believe that the guilty parties were in their hands; but they were unable at that time to discover where the men had roomed previous to their arrest, and consequently could not place their hands on the plunder which they were confident was concealed there. They held the suspected parties for several days, but were ultimately compelled to release them, from the absence of any evidence that could have secured their conviction. So soon as they found themselves at liberty, the men started for the Sacramento boat, being evidently afraid to go back to their rooms again, lest the officers should track them. The officers, however, followed them down to the wharf and noticed that they were joined there by a man named Grammont, an old convict, and that the trio went off together, as if by previous concert. Two or three days afterward, the detective succeeded in discovering their last place of residence, and, as they had anticipated, found also nearly the whole of the proceeds of the Petaluma robberies concealed in them. Believing that the burglars would remain in the interior until they thought that the matter was forgotten and would then, in all probability, return to San Francisco. Captain Lees concealed his discovery, in the hope that he would be enabled to capture and convict the robbers on their return.

It seems that when the trio arrived at Sacramento they resolved to turn their banishment to a profitable account, and accordingly prepared for business by adopting fresh aliases. Treher now called himself Faust, Grammont became Detel, and Billy Harris was transformed into the euphonious Walter St. Clair. Having thus cast the husk of their former selves, they started out on the road, and it was not long before their exploits were bruited abroad. Several houses on their line of route were entered and robbed, and becoming bolder as they advanced into the country, they stopped a teamster near Sportsman Hall, on the Placerville and Virginia road, and forced him to deliver up whatever valuables he had about him. They then proceeded, robbing houses at their pleasure as they went on, and terrifying all who opposed or ventured to remonstrate with them, by threats of instant death.—Meeting a poor man who was driving a wate-cart on the road, they stooped him, and took from all he had—some eleven or twelve dollars—in spite of his protestations of poverty. Finally, the country became roused by the audacity of these crimes, and Sheriff Hume of El Dorado, set out in pursuit of them. He had no difficulty in getting on their track, for every house owner on the road they traveled could testify to their unwelcome visits, and on the 2d of August, the Sheriff having secured the assistance of three or four good men, took up a position at a point on the road near Osgood's Toll House, where they could not well pass him by reason of a bridge.

A long and anxious virgil succeeded, for the ambuscade, but about eleven o'clock at night the robbers came in sight, and it was then seen that they were all armed with rifles. Sheriff Hume stepped out in the road however, and ordered them to stop, and without replying one of them immediately fired upon him, sending a ball through the fleshy part of his arm, and inflicting a severe though not a dangerous wound. Upon this he ordered his men to fire, and when the smoke of volley had cleared away, Treher, alias Faust, was lying dead on the ground, and one of his companions was also down, though uninjured. The third had thrown himself from the bridge in the momentary confusion, and succeeded in escaping for the time, but was afterward captured. The dead man was buried near the spot where his guilty career was so suddenly stopped, and his late companions, Harris and Grammont, were arraigned for highway robbery, tried, convicted in El Dorado county, and sentenced to eight years imprisonment each.

Some of our readers may remember that several months ago a long account appeared in one of the Eastern papers, describing the career of an adventurer who called himself the Count de Grammont, and whose career had been marked by a succession of eleven swindles. This man is the same Grammont who figures in the story we are now relating, and his life has indeed been a singular one. Whether, indeed, he is entitled to the aristocratic title claimed by him, we are not in a position to say; but it is tolerably certain that he is a descendant from an old and even a noble family. He was born, we believe, in France, but emigrated with his parents to Mexico during his infancy. In the latter country he received a liberal education, and became not only an accomplished lingaist but a fair classical scholar. In all the accomplishments deemed necessary to be learned by the scions of noble houses, he was instructed by his parents, in all the evil knowledge acquired by association with the vile and abandoned of both sexes, he obtained proficiency unaided. What first caused him to forego the advantages of his birth, to abandon the prospects which must have been open to him, and to plunge himself into the gulf of iniquity, from which he seems now alike unable and unwilling to rise, we cannot say. It is rumored, however, that he loved a Mexican girl, and that finding a rival in his path, the fierce passions, engendered by an unrestrained indolence, broke forth and culminated in a tragedy, which drove him forever from the country of his parents' adoption, and from the society of his former equals. His parents are now living in Mexico, and his father, we believe, recently held a responsible position under the government of the unfortunate Maximilian. Grammont was no novice in crime when he came to this State, many years ago, as his record given below will demonstrate. In 1855 he was sent to the State's Prison from this city for four years, on a charge of grand larceny; in 1859 he went up again for four years, for a similar crime; he has twice been sentenced for six months in the County jail, for petty thefts, and now he is sentenced for eight years for highway robbery. Thus, out of twelve years spent by him on this coast, seven has been passed under the shadow of San Quentin. The career of this man is a singular one, and probably in no other part of the world could such a record be found. We often read of such things in the pages of fiction, and smile at their seeming improbability, yet here is a man fitted by nature and education to become the hero of a modern Byron, and in the character of a land pirate, even from sentimental girls and sickly school boys, the sympathy and the tears were ill bestowed upon the corsair.

Treher, alias Dutch Jake, alias Faust, who was killed during the affray alluded above, was a native of Bernheim, in Hesse Darmstadt. He was, like his companion, was a professional thief, and was well known to the police and the prison wardens. In the year 1860 he was convicted of robbing Chinamen in El Dorado county, and was sentenced to seven years imprisonment. He had barely served out his time when he engaged in the series of outrages which terminated so fatally to him. Billy Harris is also an old convict; he was sent from Sonoma for four years in 1860 for grand larceny; next he went up from Alameda in 1864 for three years for a similar offence, and now again he has gone from El Dorado for eight years, for highway robbery.

Such is the brief outline of the histories of these desperadoes who have been a curse to the country since they entered it, and for whom it seems hopeless to expect a reformation. Men of this class appear to take to crime as aquatic birds take to water, and severity is the sole method of repressing their lawless proclivities.—*S. F. Times.*

It is impossible here to mention all the diseases with which he is familiar; some, perhaps, will not be out of place. The most formidable, the most destructive to mankind is Self-Abuse. The brain being the seat of the disease, the whole system suffers in consequence. I will here enumerate some of the symptoms, so that those afflicted may be able to form an opinion in regard to their complaints and seek advice in time, thereby saving themselves a world of suffering:

Nervous Debility, Loss of Memory, Pain in the Limbs and back, Palpitation of the Heart, Trembling of the Limbs, Headache and an aversion to Genial Society, especially that of Females.

There are a great many more, but these are sufficient, and should you be suffering from any of them, call on DR. TOZER, and he will cure you in a short time, without any interruption in your business—or state your case by letter, and there will be no occasion for your calling at the office.

A CARD FROM THE AMERICAN WATCH COMPANY,

Of Waltham, Mass.

This Company beg leave to inform the public that they commenced operations in 1850, and their factory now covers four acres of ground, and has cost more than a million dollars, and employs over 700 operatives. They produce 75,000 Watches a year, and make and sell not less than one-half of all the watches sold in the United States.

The difference between their manufacture and the European, is briefly this; European are made almost entirely by hand, and the result is of-necessity a lack of that uniformity, which is indispensable to correct time-keeping. Both the eye and the hand of the most skillful operative must vary. But it is a fact that, except watches of the higher grades, are the product of the cheapest labor of Switzerland and the result is the worthless Ancres, Lepines and so-called Patent Levers—which soon cost more in attempted repairs, than their original cost. Common workmen, boys and women, buy the rough separate parts of these watches from various factories, polish and put them together, and take to the nearest watch merchant, who stamps and engraves them with any name or brand that may be ordered.

How American Watches are made.

The American Waltham Watch is made by no such uncertain process—and by no such incompetent workmen. All the Company's operations from the reception of the raw materials to the completion of the watch, are carried on under one roof, and under one skillful and competent direction. But the great distinguishing feature of their watches, is the fact that their several parts are all made by the finest, the most perfect and delicate machinery ever brought to the aid of human industry. Every one of the more than a hundred parts of every watch is made by a machine—that infallibly reproduces every succeeding part with the most unvarying accuracy. It was only necessary to make one perfect watch of any particular style and then to adjust the hundred machines necessary to reproduce every part of that watch, and it follows that succeeding watches must be like it.

The Company respectfully submit their watches *on their merits* only. They claim to make

A Better Article for the Money

by their improved mechanical processes than can be made under the old fashioned handicraft system. They manufacture watches of every grade, from a good, low-priced and substantial article, in solid silver hunting cases, to the finest chronometer; and also ladies' watches in plain gold or the finest enameled and jeweled cases; but the indispensable requisite of all their watches is that they shall be GOOD TIMEKEEPERS. It should be remembered that, except their single lowest grade named the "Home Watch Company, Boston," ALL Watches made by them

ARE FULLY WARRANTED

by a special certificate, and this warrantee is good at all times against the Company or its agents.

POLITICAL CORRESPONDENCE.

We find the following correspondence in the Nevada *Gazette*, of Saturday last. We invite a perusal, hoping therefrom that all who were lulled into a false security at the last election may see the necessity of energetic, earnest action on the 16th instant.

NEVADA, Sept. 22, 1867.

GEORGE C. GORHAM,

Dear Sir:—Your friends and the friends of the Union party in this portion of the State are beginning to shake off the stupor caused by the disastrous and unexpected result of the late election, and are preparing to enter with unswerving purpose upon the struggle that is just before us. While regretting, as keenly as men can, the recent defeat of yourself and the noble party to which alone the destinies of this State, and the Nation, can be safely intrusted, we have resolved to continue the work with unabated zeal, and to use every honorable effort to secure the election of Judge Currey and John Swett, in the coming October. During the recent canvass, some bad men deserted us, from innate viciousness, and some good men were innocently led astray; but we are willing, here, as far as human charity may go, to forget and forgive, so that all may be with us in our next contest with the common enemy.

How stands the party in San Francisco, and in such other parts of the State as you may have recently heard from! Can you give us any words of encouragement as to its unity, its faith, its steadfastness, its determination still to stand and to do for the right? Can we present an unbroken front in October, with a fair chance to elect Currey and Swett? Your opinion as to these matters would be gratefully received by your friends here, and unless you otherwise direct I may possibly make public your reply.

Yours, truly, T. B. MCFARLAND.

SAN FRANCISCO, Sept. 25, 1867.

Hon. T. B. MCFARLAND, *Dear Sir:* I am in receipt of your letter of the 22d instant, stating that the Union men of Nevada county are preparing to enter, with unswerving purpose, upon the struggle that is just before us, and asking me how matters stand here and elsewhere. Also, asking me if I can give you any words of encouragement.

Before receiving your letter, I had already addressed a letter for publication to the editor of the Marysville Appeal, with the hope of doing some good for the cause so dear to us all. But I can not too often say a word for the right. The great party of which I am proud to be called a member, conferred on me its highest honor in June last, when it made me its candidate for Governor. The defeat which came upon us only makes me more zelous in the advocacy of the principles upon which the contest was made.

One of the lessons I draw from the result in September is the imperative necessity of unceasing labor in the way of disseminating information among the people. Many loyal men had not given such attention to the struggle between Congress and the President as enabled them to understand the vital necessity of endorsing the measures of the former; the subject had not been sufficiently brought to public attention in California during the past two years. Such men, failing to see any great principles involved and considering the contest one of purely personal preference, were easily misled by the constantly repeated misrepresentations of our enemies.

The immediate future is big with events which must go far to consolidate all who earnestly sustain the war against rebellion. The opening of Congress in November will be the occasion for so through an exposure of the treasonable purposes and practices of Andrew Johnson, that those who have failed to listen to arguments will speedily arrive at sound conclusions from the facts which will be placed before them. Then will our party in California be ag in invincible, and the electoral vote of the State be insured to our National nominee for the Presidency, whoever he may be.

But, meanwhile, we are to hold a Judicial State election. I feel confident of the success of our party in October, for the reason that I believe thousands of Union men neglected to vote on the fourth instant, not because of hostility to any of the candidates, but merely from the indifference and inactivity which always prevails with some men when success seems certain. These men will, at the coming election, join hands with the forty thousand faithful and true who stood by their colors at the last one, as they have ever done; and by redeeming the good name of the State, we shall send joy to the hearts of the loyal millions of the Nation.

I am, most truly, your obedient servant,
GEO. C. GORHAM.

ENLARGED.—The Sacramento daily *Record* came to us yesterday considerably enlarged and otherwise improved. Under Mr. Sample's management the paper will doubtless do a thriving business. We cheerfully chronicle these new evidences of the success of the *Record*.

MINING.—There is considerable activity at present in the mining operations between this place and Gold Run, on and near Squires' canyon. Ground that has heretofore been considered worthless is being worked with results highly satisfactory to all parties concerned. One claim, owned by Mr. Jacob Abeel, on being opened and run for sixteen days—the first run—yielded the handsome sum of eighteen hundred dollars. Other claims situated in the neighborhood of this claim we hear have equally flattering prospects. The claim of Messrs. Wentworth & Wolcott is in rapid process of opening, and cannot fail to be remunerative under the judicious and practical management of Mr. H. C. Kelsey, who we learn has taken charge of it. Mr. K. is an old miner—though a young man—and thoroughly understands the scientific as well as practical mode of hydraulic and quartz mining. We congratulate the company on their good fortune in securing his services.

The cement mill at this place continues to pound the richest gravel, and it is thought their returns will far exceed those of any former crushing. The prospecting for this lead in other claims in this immediate vicinity proves, conclusively, the existence of a continuous cement lead from the King Brothers' mill to Nary Red, a distance of over a mile. This will furnish ground enough to supply at least a dozen mills; and we hear that several of the owners are about to make arrangements to have machinery placed on their claims. Those who have allowed the idea to gain the ascendancy of them that Dutch Flat mines are exhausted will learn to their sorrow that they are mistaken, and that instead of our mines being worked out they are now but as it were fairly prospected, and the cream of our mineral operations is yet to be gathered.

The mines at Gold Run, always good, are sustaining their reputation nobly by yielding large sums to their owners, and when the "season" for general activity returns the people at that thriving camp will be again largely in funds. This place, however, has an advantage over us in Dutch Flat, in the fact that the Yuba Ditch Company are enabled to furnish a number of claims with water during almost the entire Summer, while our ditches dividing their supply between this place and Gold Run are compelled to withdraw their supply during about four months in the year from many of their customers, furnishing only those who are constant, during the summer. This, we learn however, will be hereafter remedied, as the Company is making arrangements to enlarge their ditches and otherwise increase their facilities for furnishing a full supply.

EDITOR ENQUIRER—Will you inform me whether the law relating to Internal Revenue requires a stamp affixed to a summons issued by a Justice of the Peace. By replying publicly you will oblige,
Yours, CITIZEN.

We are under the impression that it does require a stamp. Section 154 of the amended Revenue laws says:

"That all official instruments, documents, and papers issued by the officers of the United States government, or by the officers of any State, county, or town, or other municipal corporation, shall be, and hereby are, exempted from taxation: *Provided*, That it is the intent hereby to exempt from liability to taxation such State, county, town, or other municipal corporation, in the exercise only of functions strictly belonging to their ordinary governmental and municipal capacity.

The summons issued by a Justice of the Peace in a civil suit, it will be seen, will not come under the head or within the intent or meaning of the provision exempting the use of stamps upon official documents, in that instance the summons is not used "in their ordinary *governmental* capacity," but for private individual ends. If a Justice should issue an instrument in his official capacity, as a conservator of the peace, it being for the the good of the people, no stamp is required, as it is not the intention of the law to tax "State, county, town or other municipal corporations." But where individual interests require adjudication, the case in different.

OPPOSITION.—It is reported that the North American Steamship Company of New York intend starting an opposition line of steamers from San Francisco to Panama, in which case we may look for a lively opposition and a great reduction in the price of fare. We hope the rumor is well founded. No monopoly that ever existed on our coast has so systemmatically and effectually bled the people by extortion in high prices as the Pacific Mail Steamship Company during the past sixteen years; and it is high that something should be done to abate this evil. By their exorbitant charges and frequently unwholesome fare this Company have done more to retard a better class of immigration than most persons are aware of. We are glad of any enterprise by which persons will be enabled to come to our shores by paying a reasonable amount of money.

ANXIOUS.—Now that Mr. H. H. Haight is Governor-elect he is determined to make the most of his position. A few days ago he was engaged in telegraphing his congratulations to the Captain-General of Cuba on the completion of the Ocean cable, signing himself Governor-elect. Next, he will probably be entertaining foreign officers in the capacity of Governor. It would have looked a little more modest if he had refrained from exercising the courtesies of Governor until he had formally been inducted into office. But modsty, we believe, is not one of his characteristics.

LEGENDS OF THE EAST FORK.

THE LOST ROCKER.

Late in the Fall of '53, two Wolfe brothers, and a third party whose name has not been handed down—all of Illinoistown, in this county—found themselves prospecting in the vicinity of the Forks House, on the south branch of the North Fork of the American River. They made the Forks House their principal headquarters, striking out from, and returning thither in their various prospecting expeditions, generally extending up the divide. They had been out several weeks without finding anything; the season was advanced, the weather threatening, when they agreed to wind up with another tramp and return to Illinoistown for Winter quarters. Accordingly they loaded a mule with a few days' provisions, a rocker, etc., set out from the Forks House up the South branch, following the windings of its right bank for about seven miles, when they crossed the branch, and climbed the opposite divide. Several ravines were tried, but nothing was found until they came to a ravine in sight of the "Devil's Peak," sloping into the East Fork, with running water in it, and strewn with white quartz. Here a pit was sunk, and a piece of gold weighing two ounces was panned out in the first pan. The rocker was then put to work, and two hundred and ten dollars were rocked out of the pit. That night it came on to snow, and in the morning when they got up it was still snowing, and throwing their rocker on the bank behind a fallen cedar tree, they hastily departed for the Forks House. It was still snowing when they arrived there, and, convinced that Winter had set in, they forthwith struck out for Illinoistown, where they remained and mined in company during the season. Early the following Spring, they set out together in quest of their ravine, but their best efforts to return to it were entirely unavailing. The search was diligently kept up by them during the Summer ('54); renewed in '55, continued in '56; but sometime during the latter period was abandoned as far as they were concerned. Other parties have continued to "keep an eye out" for the lost rocker; and during the past Summer, while the writer smoked his meerschaum in that storied region, he encountered a well known Placer county ranchman roaming the ravines in search of the Wolfe boys' "machine."

THE LOST CABIN.

In the Summer of '54, two German prospectors, mounted, and driving before them an animal packed with tools, provisions, etc., started from Iowa Hill to explore the "upper country," or heads of the forks of the main North Fork of the American river. They had been out about two weeks, the tradition says, prospected the heads of the North and Middle branches without raising a color, and were roaming the hills at the head of the East Fork, when, one noon, as they halted to cook their flapjacks by a spring in a shady ravine, they discovered quartz rock, rich in gold, plentifully scattered about the place. Elated by the discovery, they immediatcly began a search for the vein, but though they succeeded in gathering a large pile of very rich "float," the sun went down upon them pursuing their search unsuccessfully. That night after going to bed they held a consultation and resolved that, as their groceries were low and their tools dull, they would devote the following day to building a cabin in the ravine, and then go out for repairs and a fresh inventory of things needed. Accordingly, the tradition runs, they constructed a cabin, stored their rock, camp equipage, remaining provisions, etc., in it and struck; but after traveling two days, awoke to the conviction that they were lost; and while endeavoring to retrace their way to the cabin, encountered a hunter who directed them to Brownsville (anciently situated on Bear river, above Buffalo Slide), as the nearest settlement. Pursuing their way from Brownsville to Iowa Hill they hastily procured the articles and repairs for which they came, and concealing their secret, again set out for the scene of their discovery. They had been absent about three weeks when they again made their appearance at the Hill, related the story of the finding of the quartz, the building of the cabin, storing of the rock, remaining provisions and tools and camp equipage, and declaring the utter failure of their best attempts to return to the place. Several of their acquaintances volunteered to accompany them in a fresh search, which was at once undertaken but without the least success. Parties continued to look for the place for several summers, but without meeting with the least vestige of a trace of the lost cabin.

A celebrated Dutch Flat wit to whom the writer mentioned the tradition, smilingly remarked: "Ah, it is indeed singular that the cabin cannot be found, but nothing strange that it should have been lost, provided the Teutonic gentlemen left it after four o'clock." FLAMINGO.

J. H. WARWICK, Esq., lectured in San Francisco on Monday evening last before the Chamber of Commerce of that city. Subject: "Resources of California." The room was well filled, and the lecture frequently applauded. This lecture is to be repeated throughout the East and Europe. He expects to leave for the East on the 11th.

SEMI-WEEKLY ENQUIRER.

MATTERS at MEADOW LAKE.—We excerp the following news items from the Meadow *Sun* of Sept 28th:

The Gold Run Company are now taking out some splendid ore from the first level of their mine. They have just struck a very rich streak, about eighteen inches wide at this point. The rock is of a porus or decomposed nature and shows a considerable quantity of free gold. A train of mules are now employed in packing rock from this mine to the Mohawk & Montreal Mill for crushing.

The Enterprise company are busily engaged in erecting a furnace for the purpose of roasting their rock and thus facilitate the reduction of their ores. The process to be used is known as "Williams' super-heated steam process." They have levied an assessment of one dollar per share on their mine, and intend to drive things ahead in proper style.

H. Watson, of this place while in the store of John Conley, on Tuesday last, was attacked by a savage dog kept in the store, and had his face and hand badly bitten. The dog was immediately taken out and killed.

MURDER.—The Nevada Gazette learns from Hopkinson, the expressman, that on Monday last, in Sierra county, a Mr. Britton and a Mr. Simmons got into a dispute about a mining claim, when the latter drew a pistol and fired at the former, missing him. Simmons, after firing, ran into his house near by, closed the door and barricaded it. Britton came up and broke the door down. Mr. Simmons' wife sprang betweene the two men, trying to shield her husbrnd, but Britton, also having a pistol or revolver, shot him in the head. Then drawing a knife he plunged it several times into the prostrate form of his victim. He then rose up, and flourishing the bloody weapon over the lifeless body, shouted—the same words used by the assassin Booth—"Sic semper tyrannis," and made his escape, Britton is well known at little York, Nevada county.

AN EXTENSIVE NEWS ROOM.—Messrs. Hudson & McCarty, Advertising and Subscription Agents for the press of the United States, have fitted up one of the most extensive newspaper reading-rooms to be found in America, in the Merchants' Exchange building, their establishment corresponding in location with the Long Room, on the eastern side of the main entrance. They have on file, neatly arranged and convenient of access, every paper published on the Pacific coast, and all the leading dailies of the Atlantic States and Europe, with weeklies from all parts of the world, the whole list embracing some 400 newspapers. They have also all the leading pictorials and American and European monthlies and quarterlies, and their rooms are among the most attractive resorts in San Francisco. Editors and merchants from the interior are admitted to the reading-room free at all times, and residents of the city can obtain all the advantages of the establishment by paying small monthly dues.—*Alta.*

GOOD YIELD.—Mr. Osmyn Harkness, after a run of twenty-four days in his claim between this place and Gold Run cleaned up something over five thousand dollars, four men working.

MRS. MARY COVILLAUD, one of the Donner party, that suffered so terribly at Donner Lake, in the Winter of 1845–6, died at Marysville on Friday last, aged thirty-six years. She was married in California.

NOTICE.

THERE will be a meeting of the Champion Mining Company, on Tuesday, Oct. 1st, in Dutch Flat. Said Company's claims are located at Redstone's Ranch. Important business.

CHOLERA!

MR. PERRY DAVIS:—Sir: The benefits I have received from the use of your invaluable remedy, the Pain Killer, induces me to pen you a word in its praise. Experience has convinced me that for Headache, Indigestion, Pain in the Stomach, or any other part of the system, severe Chills, Weariness, common Colds, Hoarseness, CHOLERA, CHOLERA MORBUS, Diarrhœ, Dysentery, Toothache, etc., THERE IS NOTHING BETTER THAN THE PAIN KILLER. I have this hour recovered from an attack of the Sick Headache, by using two teaspoonsful, taken at thirty minutes interval, in a wine glass full of hot water. I am confident that, through the blessing of God, it saved me from the cholera during the summer of 1843. Traveling amid heat, dust, toil, change of diet, and constant exposure to an infected atmosphere, my system was daily pre-disposed to dysentery attacks, accompanied with pain, for which the Pain Killer was a sovereign remedy, one teaspoonful curing the worst case in an hour, or, at the most half a day. I have heard of many cases of Dysentery being cured by its use. Put in the teeth, it will stop the toothache. Gratitude and a desire for its general use, has drawn from me this unsolited testimonial in its favor.

REDINGTON & CO.S

ESSENCE OF JAMAICA GINGER.

THIS valuable preparation, containing in a highly concentrated form all the properties of the Jamaica Ginger, has become one of the most popular domestic remedies for all diseases of the stomach and digestive organs.

As a tonic it will be found invaluable to persons recovering from debility, whether produced by fever or otherwise, for whilst it imparts to the system all the glow and vigor that can be produced by wine or brandy, it is entirely free from the reactionary effects that follow the use of spirits of any kind.

It is also an excellent remedy for females who suffer from difficult menstruation, giving almost immediate relief to the spasms that so frequently accompany that period.

It gives immediate relief to Nausea, caused by the riding in a railroad car, or by sea-sickness, or other causes. It is also valuable as an external application for Gout, Rheumatism, Neuralgia, etc.

THE UNION PLATFORM.

The Union Party of the State of California, in Convention assembled, hereby present to the people of this State their platform and declaration of party principles:

Resolved, That in the present, as in the past, we are irreconcilably opposed to treason and to traitors, whether the same shall attempt to subvert our Union and control our Government by fraud and treachery from within, or force from without; and that upon the loyalty of the Nation, tried and proven, we rely to re-establish firmly and forever the bonds of our National Union.

Resolved, that in reconstructing the nation its foundations should be justice and its architects loyalty, and we are unwilling that those so active to destroy, should be the chosen and preferred builders to erect it, and until it shall appear that in the States lately in rebellion loyal Committees exist capable and ready to administer justice and enforce law in accordance with the principles of a government of freemen and equality, it is our wish that the Government be administered and the law enforced by the loyal agents of the Federal Government.

Resolved, That in the reconstruction plan of the Late Congress we recognize a policy as wise as it is magnanimous, and when the respective States late in rebellion shall bring themselves within its provisions, we will welcome them as sisters and receive them as equals in a reconstruction Union.

Resolved, That we deem the passage by the Legislature of a law establishing eight hours labor as a legal day's work, eminently just and proper.

Resolved, That the importation of Chinese or any other people of the Mongolian race into the Pacific States or Territories, is in every respect injurious and degrading to American labor, by forcing it into unjust and ruinous competition, and as evil that should be restricted by legislation and abated by such legal and constitutional means as are in our power.

Resolved, That the future primary elections of the Union party in this State should be held under the provisions of the primary election law, and that such test should be prescribed and enforced as shall exclude all persons not members of the Union party.

Resolved, That we fully approve the amendment to the Constitution of the State, presented by the Legislature of 1866, and providing that the Legislature shall have no power to make an appropriation of money for any purpose whatever, for a period longer than two years; that the same should be accepted by the Legislature, adopted by the people and become part of the Constitution of the State.

THIS CELEBRATED INSTITUTE
has enjoyed on this coast an uninterrupted success of fourteen years, and has become one of the renowned Hospitals of the age. What the celebrated Lock Hospital is to London, and the no less renowned establishment of Ricord is to Paris, this Institute has become to the Pacific coast. The thousands annually received and cured place it in point of number of patients among the very first of the world and the success of its treatment ranks it second to none.

PRIVATE DISEASES IN MALES and IRREGULARITIES IN FEMALES are the great destroyers of health. They insidiously attack the system and gradually undermine and destroy it; they drive the bloom from the cheek, the lustre from the eye, the strength from the frame; they give to the world puny and diseased offspring, and poison, through successive generations the race of man. The marks can be seen in Scrofula, Consumption, Cripples, the Idiotic, the Paralytic, the Insane, etc.

There is no more terrible scourge to the human race than those diseases arising from the contamination of Venerial Poison. The mildest forms, by retreating to the blood, hold over the afflicted one, the destruction that is liable at any moment to fall and blight—to utterly destroy—all earthly hopes.

MERCURY, recognized as the most fatal medical enemy to man, combining with the Venereal, doubles his dangers. Those who have been treated with that pernicious mineral poison are not cured; the disease has only assumed a new form.

Do not be satisfied with partial cures
that leave the poison to crawl through the system, eating its way into the tissues and organs beneath the apparently smooth surface, to burst out in the future with a virulence that will baffle the effects of medicine. WHEN PERFECT CURES can be obtained by consulting a physician whom long practice and thorough investigation into the causes of DISEASES of the URINARY ORGANS enables to determine at once the nature of the disease.

In all cases entrusted to the Doctor's care, PERFECT, SPEEDY and PERMANENT,

Cures are Always Guaranteed.

In syphilis and its adjuncts; Gonnorrhœa and its accompanying diseases; and all diseases of the Bladder, Kidneys, and prostrate; Seminal Weakness Diseases of the Heart and Lungs; Dyspepsia; Indigestion, Impotency; Incipient consumption, and all diseases of the urinary organs, in either sex, cure always warranted, NO PAY REQUIRED, at the

Private Medical Institute,
No. 536 Washington street, San Francisco, Cal.

Seminal Weakness or Spermatorrhœa

The young man who experiences that growing weakness in his muscular and mental organization should stop to consider whence it arises. He will find in the weakness of the back, trembling of the limbs, disordered digestion unaccountable failing of the powers of the mind, distaste for society, dread of impending trouble, forebodings of evil, sleeplessness, troubled and lascivious dreams, accompanied by growing deafness, loss of muscular power, and numerous other symptoms of disorganization, the positive traces of that most terrible and destructive of all diseases Seminal Weakness—wasting away his powers, destroying his hope of life and manhood, and dragging him along the broken path of his existence towards a premature and loathsome grave. To him who finds his life dribbling out in the discharge of the vital principle of existence in nocturnal and diurnal emissions, the mere cessation of its appearance brings no assurance of relief.

Marriage, that holy office, the safeguard and hope of manhood, brings to such an one no hope of cure, but adds to his misery in the knowledge that the one, who looks to him for so much of her happiness, is a victim to his evil, and an innocent companion of his punishment. He adds to his misery and disorder until hope leaves him. There is no rescue except in proper and skillful treatment. Consult then, at once, a physician whom long practice and careful research has made thoroughly conversant with every phase of the disease. Those who have become the victims of solitary vices, that dreadful, fascinating and destructive habit, which fills thousands of sick-rooms with paralytics and consumptives, and hundreds of untimely graves with its misguided victims, should consult, without a moment's delay, one who will sympathize with their sufferings. To such the Doctor would especially address himself, giving to each and all assurance of a PERFECT and PERMANENT CURE, without hindrance to business, change of diet, or fear of exposure.

Do not forget the address. See below.

Important to Females.

When a female is in trouble or afflicted with disease and requires medical or surgical assistance, the enquiry should be, Where is there a physician who is fully competent to administer relief, and whose respectable standing in society recommends him to the confidence of the community? The Doctor understanding how imperatively necessary these requirements are, feels called upon to interpose, and beg the attention of the afflicted to the fact that he has been a Professor of Obstetrics and Female Diseases for twenty years, and is fully qualified to administer in all cases, both medically and surgically, not in a superficial manner, but in as thorough a manner as years of study and practice—both in hospitals and private families—can make, to save them from the hands of the unqualified, unscrupulous and designing. Therefore families can rely upon him as upon a father. All in affliction can find in him one who will feel and sympathize with and befriend them in trouble—one in whose secrecy the utmost confidence can be placed. Consultation by letter or otherwise, FREE. See address below.

THE CELEBRATED FEMALE REMEDIES, compounded from the private prescription of Dr. Young, have now obtained a most extended popularity, and are correctly viewed to be the safest and surest remedies for the complaints for which they are applied. The constantly accruing testimonials of their efficacy declare them to be pre-eminently superior in their action. No lady should be without these Renovating Agents. None genuine unless procured at this office.

MEDICAL.

PRIVATE MEDICAL AID.
QUICK CURES AND MODERATE CHARGES.
DR. W. K. DOHERTY'S
Private Medical and Surgical Institute
Sacramento Street, below Montgomery, opposite the Pacific Mail Steamship Company's Office. Private entrance on Leidesdorff street, San Francisco.
Established expressly to afford the afflicted sound and scientific medical aid in the treatment and cure of all Private and Chronic Diseases, cases of Secrecy and all Sexual Disorders.

TO THE AFFLICTED.

DR. W. K. DOHERTY returns his sincere thanks to his numerous patients for their patronage, and would take this opportunity to remind them that he continues to consult at his Institute for the cure of chronic diseases of the Lungs, Liver, Kidneys, Digestive and Genito-Urinary Organs, and all private diseases, viz: Syphilis in all its forms and stages, Seminal Weakness, and all the horrid consequences of self-abuse, Gonorrhœa, Gleet, Strictures, Nocturnal and Diurnal emissions, Sexual Debility, Diseases of the Back and Loins, Inflammation of the Bladder and Kidneys, etc., etc., and he hopes that his long experience and successful practice will continue to ensure him a share of public patronage. By the practice of many years in Europe and the United States, he is enabled to apply the most efficient and successful remedies against diseases of all kinds. He uses no mercury, charges moderate, treats his patients in a correct and honorable way, and has references from men of known respectability and high standing in society. All parties consulting him by letter or otherwise, will receive the best and gentlest treatment, and implicit secrecy.

DR. DOHERTY would call attention to the following certificates from two of his patients, who, having fully recovered their health, desire to make known their remedial agent. It will be seen their statements are fully authenticated by a Notary Public.

The welfare of society imperiously demand their publicity and they are given more to warn the unwary than to sound the praise of a Physician, of whom hundreds of like cases can be cited during a practice of more than fifteen years.

DR. DOHERTY—Dear Sir: I feel my health so fully restored, that in common gratitude, I believe I should make you some written acknowledgement for your valuable services—particularly as your fee was small for the work performed.

I arrived in this city from the East about one year ago, and was then suffering from an old case of Gleet, complicated with Stricture. Being a stranger in this city, and believing those Doctors who gave such positive assurances of success were necessarily the best, (some of whom have a large number of titles,) I placed myself in their charge and continued under their treatment until I had lost nearly all hope and a considerable sum of money.

I wish to say now that you are the sixth Doctor I have employed, and the only one that has ever done me any service. My Gleet is wholly cured, the Stricture is all removed, and my general health is better than it has been for years.

In conclusion, I would say to the many unfortunates who require medical advice, if you have any doubt as to whom you may employ, ask Dr. Doherty for my address and call and see me. (I keep store in this city.) My experience may save you many dollars.

I would also add that in the early stage of my disease I used a large amount of the preparations advertised as an infallible cure for Gonorrhœa, Gleet, etc., but never derived any benefit from them.

I am, Doctor, very truly yours,
L—— H——.

San Francisco, June 16, 1864.
subscibed and sworn to before me, this 21st day of June, A. D. 1864.
[L. S.] A. S. GOULD, Notary Public.

Seminal Weakness—A Sworn-to Certificate of a most Remarkable Cure of Spermatorrhœa.

A desire to benefit humanity, and a feeling of gratitude to Dr. W. K. Doherty, alone induces me to make this statement. For many years I have been afflicted with that fearful disease known as "Spermatorrhœa," or Seminal Weakness, the result of self-abuse, but till 1855 experienced but little trouble or inconvenience. In that year however, I had Seminal Weakness to an alarming extent, which was soon followed by the most alarming symptoms as weakness of the back and limbs, pain in the head, dimness of vision, nervousness and general debility. My mind, too, was affected to such an extent as to seriously impair my memory; my ideas were confused and spirits depressed. I was averse to society, had evil forebodings and self-distrust, and was entirely unfitted for any of the duties of life. From 1855 to the summer of 1863, I employed the very best medical talent I could find, and spent several hundred dollars, but in no instance obtained more than temporary relief. I had about concluded there was no relief for me in this world, but seeing Dr. Doherty's advertisement, I thought I would call and see him, as he charged nothing for consultation. I had an interview with Dr. Doherty at his office, in Sacramento street, and his fee for treatment was so reasonable, I determined to try him, though I did not expect much benefit from his treatment. On the 5th of December last I placed myself under his care; in one week I found myself very much improved, and, now, after five weeks' treatment, I feel myself thoroughly cured of all my troubles and in the enjoyment of the best health. Hoping that my experience may be of benefit to others similarly afflicted, I subscribe myself JAMES JOHNSTON.

Subscribed and sworn to before me, this 15th day of January, A. D. 1864.
[L. S.] A. G. RANDALL, Notary Public.

To Correspondents.

Patients residing in any part of the State, however distant, who may desire the opinion and advice of Dr. Doherty on their respective cases, and who think proper to submit a written statement of such, in preference to holding a personal interview, are respectfully assured that their communications will be held most sacred, Dr. Doherty takes this opportunity of observing, that all letters are only opened and replied to by himself, and the latter as promptly as possible.

If the case be fully and candidly described, personal communication will be superseded, as instructions for diet, regimen, and the general treatment of the case (including the remedies), will be forwarded without delay, and in such a manner as to convey no purport of the letter or parcel so transmitted. ☞ Consultation at the office FREE. HOPE FOR THE AFFLICTED.—In another part of this paper will be found the advertisement of the celebrated Institute established by Dr. J. C. YOUNG, in 1850. In this age of deceit and charlatanism it is a boon to the suffering to point out to them where they are sure of obtaining the wished for relief and cure. Under the care of the skillful Doctor the sick and troubled can divest themselves of their burdens of pain; lay aside their cross, and secure health and happiness. If you are sick or in trouble, do not hesitate. Read the advertisement and follow the advice. Do not forget the number or the manner of directing your letters. MEDICAL ADVICE.—DR. WM. K. DOHERTY'S Medical and Surgical Institute is becoming a sine qua non to the welfare of our State and health of our citizens; and his rapidly spreading reputation, although it may excite surprise, is but the signal of skill, and follows as the natural result of such a cause. We are personally acquainted with gentlemen who had suffered for years under chronic disease, and who had taken advantage of every available means that promised relief, but without success, until they called upon Dr. Doherty, who, in an incredibly short space of time, has given them entire relief. It is gratifying to announce this fact, because the Dr. is a gentleman who seeks, not by defamation of others to establish his reputation or ruin of another's fame. The Doctor conducts his own Institute in such a manner must be gratifying to all his patients. He examines, advises, and recommends without charge, and the patient, after hearing his terms for treatment, can accept or reject at pleasure. In no case does the Doctor make a charge unless he effects a cure. This he is able to do, because he feels the confidence which long experience has given, and no doubt the consolation which appertain to that confidence. Persons afflicted with either acute or chronic disease, would do well to consult the Doctor; at all events, it can do no harm, as for consultation he asks no fee; nor does he insist on obedience to his advice unless the patient places himself under his care. His offices are on Sacramento street, opposite the Pacific Mail Steamship office.—News

TOZER would most respectfully inform the sick and afflicted that his MEDICAL INSTITUTE is removed to No. 108 Montgomery street, next door to the Occidental Hotel, San Francisco. MEDICAL.

FRENCH MEDICAL OFFICE.

DR. JULIEN PERRAULT, Doctor of Medicine of the Faculty of Paris, Graduate of the University Queen's College, and Physician of the St. John Baptiste Society of San Francisco.

DR. PERRAULT has pleasure to inform patients, and others seeking confidential medical advice, that he can be consulted daily at his office, Armory Hall Building, North-East corner Montgomery and Sacramento streets, San Francisco. Rooms No. 9, 10, 11, first floor, up stairs entrance either Montgomery or Sacramento streets.

DR. PERRAULT'S studies have been almost exclusively devoted to the care of the various forms of Nervous and Physical Debility, the results of injurious habits acquired in youth, which usually terminate in impotence and sterility, and permanently induce all the concomitants of old age. Where a secret infirmity exists involving the happiness of a life and that of others, reason and morality dictate the necessity of its removal, for it is a fact that premature decline of the vigor of manhood, matrimonial unhappiness, compulsory single life, etc., have their sources in causes, the germ of which is planted in early life, and the bitter fruit tasted long afterward; patients, laboring under this complaint, will complain of one or more of the following symptons: Nocturnal Emissions, Pains in the Back and Head, Weakness of Memory and Sight, Discharge from the Uretha on going to stool or making water, the Intellectual Faculties are Weakened, Loss of Memory ensues, Ideas are clouded and there is a disinclination to attend to business, or even to reading, writing or the society of friends, etc. The patient will probably complain of Dizziness, Vertigo, and that Sight and Hearing are Weakened and sleep disturbed by dreams, melancholy, sighing, palpitations, faintings, coughs and slow fever; while some have external rheumatic pain, and numbness of the body. Some of the most common symptons are pimples in the face and aching in different parts of the body. Patients suffering from this disease, should apply immediately to DR. PERRAULT, either in person or by letter as he will guarantee a cure of Seminal Emissions and Impotence in six to eight weeks.

Patients suffering from venereal diseases in any stage; Gonorrhea, Gleet, Strictures, Bubo Ulcers, Cutaneous Eruptions, etc., will be treated successfully. All Syphilitic and Mercurial Taints entirely removed from the system.

DR. PERRAULT'S diplomas are in his office, where patients can see for themselves that they are under the care of a regularly educated practitioner. The best references given if required.

Patients suffering under caronic diseases, can call and examine for themselves. We invite investigation; claim not to know everything, nor to cure everybody, but we do claim that in all cases taken under treatment we fulfil our promises. We particularly request those who have tried this boasted doctor, and that advertised physician, till worn out and discouraged, to call upon us.

Low charges and quick cures.

Ladies suffering from any complaint incidental to their sex, can consult the doctor, with the assurance of relief.

Female Monthly Pills.

DR. PERRAULT is the only agent in California for DR. BIOT'S Female Monthly Pills. Their immense sale has established their reputation as a female remedy, unapproached, and far in advance of every other remedy for suppressions and irregularities, and other obstructions in females. On the receipt of five dollars, these Pills will be sent by mail or express to any part of the world, secure from curiosity or damage.

Persons at a distance can be cured at home, by addressing a letter to DR. PERRAULT, corner of Sacramento and Montgomery streets, Rooms, 10 and 11, or Box 973, P. O., San Francisco, stating the case as minutely as possible, general habits of living, occupation, etc., etc.
